30 Days Trial
In your Home

We know all about other sewing machines, from treadle to spool pin; we know them all, the cheapest and the highest priced. We have investigated them all—everyone of them has been found lacking some real essential; every one of them has had some glaring faults—but in

The FREE

which you hear and read so much about, we offer a machine that is perfect, absolutely perfect, a machine in which not the smallest detail can be improved.

And in order to get you to realize its superiority as we do, we have decided three things:

First, that we cannot afford to advertise its low price—you would never imagine that you could get so perfect a machine for so little money. To appreciate its price, you must come to the store and see the machine first.

Second, we will offer you the chance to test The FREE, from treadle to spool pin, in your own home. The best way for you to become enthusiastic over its one test in any way you choose—to compare it with any other sewing machine you know of and then make your decision. Unless you are fully satisfied—more than satisfied—send it back to us—it will not cost you a cent, we will refund all you have paid on it.

But there will be at least 12 reasons why you will want to keep The FREE when the 30 days are over:

- There is the true beauty of its French design and the Japanese finish which never wears out.
- There are the 8 sets of Bull-Headings which test it in the lightest running sewing machine in the world.
- There is the "Automatic" movement—Mr. Free's own invention which makes The FREE handle the same as the famous Rotary and simpler than the simplest treadle.
- There is the Shuttle Feeder, the Automatic Locking Device, the Rotary Spool Pin, the Improved Head Latch, the Automatic Tension Release, the Automatic Lift, the Retention Shuttle which never wears out, the 5-rod Remover Policy against all kinds of accidents—and everything else you could ever imagine to make a sewing machine simpler than the simplest treadle.
- We want you to experience all of these things yourself and our whole desire is to make it extremely easy for you to keep The FREE by offering it to you at your own terms as low as

\$1 a Week Payments

Come and see The FREE tomorrow and take it home for month's trial.

Big Gain
Democrats in Congress will be in the Majority and Will do Things Right.

The Democrats will have a majority in the National House of Representatives and will now be able to do things as the great multitude of people of this free country wants it done. A look at the following table, compiled exclusively for the Climax readers, will show the reader just how the next Congress is to be made up, what states the most Democrats and what states the most Republicans. It would be an excellent idea, and The Climax publishes this with such view, viz., that it be cut out and saved for future reference. This table is a valuable reference.

Comments on the Fall of The 1910 Tobacco Pool

CUT-OUT NEXT YEAR ADVOCATED. (Georgetown News.)
Cutting out the 1911 crop seems to be the only wise solution to the present situation. Not only does it seem to us to be the proper solution from a financial standpoint, but it also seems to be the most peaceful solution. Certainly those who have disposed of their 1909 crops and those who have contracted the sale of their 1910 crops at a strong price would not persist in growing another crop if it takes a cut-out crop now to protect those who are still in the 1909 pool. We do not believe they will. Whatever is done, however, must be in a peaceful and lawful way. Whether the 1911 crop is cut or what not, ever remember that the law must be upheld; that its supremacy must be recognized at all times and under all circumstances. First: Law and peace; next, prosperity, and both together spell Happiness with a big H. We trust that the tobacco growers will yet share their rightful portion of them all.

THE POOL IS DEAD; LONG LIVE THE POOL. (Shelby Sentinel.)
Like the mariner at sea, the tobacco grower has to take a reckoning from time to time. The declaring off of the 1910 pool by the District Board is but the first step in a new battle. The Burley Tobacco Society by its continued existence and without loss of hope and courage, can not but win in the end. Past experiences should not discourage, but stimulate greater energy and add the necessary caution. The cutting out treatment has made the Trust squal leader than anything heretofore tried; and why not give a second, a third, or as many trials as may be necessary to effect a cure? It will prove the panacea for all our tobacco ills if effectively and frequently utilized as the case demands. If for a few years to come alternate crops would be cut out, each year's product would readily bring thirty cents per pound instead of fifteen cents. That the pool of 1910 was a failure is due to the nonpooler and nobody else. He will feel the shoe pinch just as hard as his brother, who insistently, yet kindly, invited him to join in a movement for higher prices. His answer, "No," was about as expensive a declaration as was ever embodied in a word. The little ugly word, no, which has but two letters and no body, is due to the nonpooler and nobody else. He will feel the shoe pinch just as hard as his brother, who insistently, yet kindly, invited him to join in a movement for higher prices. His answer, "No," was about as expensive a declaration as was ever embodied in a word. The little ugly word, no, which has but two letters and no body, is due to the nonpooler and nobody else.

Try This for Catarrh
Get a HYOMEI (pronounce it High-ome) outfit today.
Pour a few drops from the bottle into the inhaler; this comes with each outfit, and breathe in it four or five times a day. Immediately you will know that HYOMEI soothes and heals the inflamed and irritated membrane.
But HYOMEI does more than soothe and heal; it kills the germs, those persevering pests that are at the root of all catarrhal conditions.
"Last year I suffered terribly with catarrh. I used one bottle of HYOMEI and my catarrh was better."—Miss Helen McNair, Loyalton, Cal.
A complete HYOMEI outfit, including a bottle of HYOMEI, a hard rubber pocket inhaler and simple instructions for use, costs only \$1.00. If you now own a Hyomei inhaler, you can get an extra bottle of HYOMEI for only 50 cents at R. L. Middletons and druggists everywhere.
Guaranteed to cure catarrh, cough, asthma and sore throat, or money back.

For Sale.

Waco, Ky.

Old Home Town.
When the evening shade is fallin' at the endin' of the day,
And a feller rests from labor, smokin' at his pipe of clay,
There's nothin' does him so much good, be fortune up or down,
As the little country paper from his ol' home town.
It ain't a thing of beauty and its print ain't always clean,
But it straightens out his temper when a feller's felling mean;
It takes the wrinkles off his face an' brushes off the frown,
That little country paper from his ol' home town.
It tells of all the parties, an' the balls on Pontiac Row,
'Bout who spent Sunday with his girl an' how the crops will grow,
How it keeps a feller posted, 'bout who's up and whose down,
That little country paper from the ol' home town.
Now I love to read the dailies, and the other papers too,
An' at all times the yellow novels, an' some other trash, to don't you?
But when I want some readin' that'll brush away a frown,
I want that little paper from my ol' home town.

Work Stopped.
The Berea Telephone Co. was preparing to place a new line of poles between this city and Rogersville, has temporarily ceased work on account of the interference of the Fiscal Court. The right of the company to use the turnpike for its poles was questioned by the court. There is no franchise issued to this or any other company doing business in Madison which gives it the use of the pike. The Fiscal court is the sole judge, and a heavy fine can be assessed for obstructing the highway. The Fiscal court is determined that the county is entitled to a big slice of the revenue that the company takes in each year, if it uses the pikes, and will prosecute its claim vigorously. The telephone companies are alike all other corporations, you just have to hold them down in order to keep them from pushing everything and everybody off the road.

They're Good.
A bunch of guineas on the local market created quite a stir last week. This fowl is plentiful in the county, but it is a very unusual scene to see them offered for sale on the markets. Being of a somewhat wild nature, they are not as hard to raise as most people think, and the effort to domesticate them by the country people is the chief reason for the falling off. If let alone they will take care of themselves and bring a good price in the market.
The flesh of the guinea is highly prized and brings as high a price in the city market as that of the first chickens and often more. It has a gamy flavor which most people prize. Guinea flesh is served in nearly all the large hotels and restaurants under the name of pheasants and if one is in touch with a large hotel a considerable number of the birds may be disposed of always at prices that will be a handsome profit, even considering the care necessitated in raising them.
There is little danger from a cold or from an attack of grip except when followed by pneumonia, and this never happens when Chamberlain's Cough Remedy is used. This remedy has won its great reputation and extensive sale by its remarkable cures of colds and grip and can be relied upon with implicit confidence. For sale by all dealers.

Farm News
Items of Interest to the Farmer, the Grower and the Stockman.
In Woodford county Schuberth & Willis bought last week 45 sheep at 87¢ per head. Also 12 head of cattle from Carty Bros., of Jetts, at \$30 per head.
Oscar Wilson, a tenant on John Harris farm on the Shyrock's Ferry pike, raised 106 bushels, or 530 bushels, of corn on seven acres of land.
Graham & Holt have recently purchased between 1,200 and 1,600 bbls. of corn at \$2.50 a bl. from Theo. Harris, Jas. C. Pates, E. M. Wallace and J. W. Harris.
Edwards & Hann sold to Watson King 40 yearling steers, 650 to 700 lbs., at \$4.40 to \$4.50 cwt. and to McGinnis & McDonald, of Frankfort, 66 slop steers at \$4 to \$4.00 cwt.
Jonas Well, the cattle buyer of Lexington, has secured the feeding privileges at the Paris Distilling Co., and now has 250 head of cattle in the cattle barns which are to be fed until the plant ceases operations in May.
In Montgomery, Lucian B. Greene sold to Monte P. B. Davis, for shipment east a bunch of fine export steers. The cattle averaged 1,350 pounds, and brought seven cents a pound, or a total per head \$107.10.
They're Good.

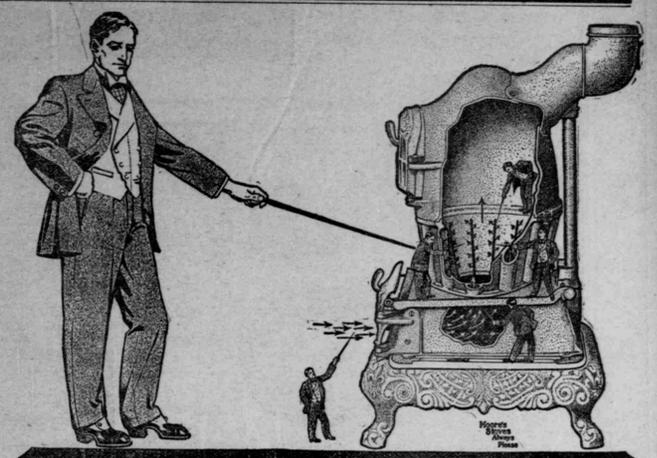

The Gouge
of the Republican Tariff Law Hits the Laboring Classes.

When you begin to analyze the present iniquitous Payne Aldrich tariff in its homely applications, it brings out some funny facts, extremely ludicrous in fact, if we but eliminate its burdensome side on the humble but honest toilers in the land. But when we look at it from the viewpoint of equity and justice to the man or woman who earns their daily bread by industry and toil, it is not strange that the voters of this mighty and just nation should have repudiated it in the election held on November 8th last. The New York World in discussing this important subject says:
When the wrinkled, chapped laundress finishes the week's wash and delivers it Saturday night, she has received during her week's labor the following blessings from the Payne-Aldrich tariff. On her soap she has been tariff-taxed 20 per cent. On the wrapper in which the soap comes, 25 per cent. On the ammonia that helps to keep the flannels soft, 25 per cent. The washing soda is tariff-taxed one-quarter of a penny a pound. The starch is tariff-taxed 1 1/2 cents a pound and the borax 2 cents a pound. The bluing is protected with a 30 per cent tariff. She wrings them out on a wringer the metal castings of which are tariff-taxed one cent a pound, and the wooden frame 35 per cent, and the rubber rollers 35 per cent. The washboard itself is tariff-taxed 35 per cent, and the ribbed zinc 1 1/2 cents a pound. She dumps the damp clothes into a wicker clothes basket that is tariff-taxed 35 per cent. Merrily she trips up on the roof and hangs them on the clothes line—clothes line tariff-taxed 45 per cent—with clothes pins tariff-taxed 35 per cent. If instead she balances herself on the fire escape the rope is taxed the same and the pulley is also taxed 45 per cent. A wooden frame dryer is taxed 35 per cent. She gathers them in the tariff-taxed basket and irons them with irons tariff-taxed 8-10 of a penny on a pound. She heats the irons on a tariff-taxed stove; keeps her coal in a scuttle tariff-taxed 45 per cent. If she uses charcoal it is taxed 20 per cent, or coke 20 per cent. Even the matches are tariff-taxed one-half penny a dozen boxes. "Many a mickle makes a muckle"—motto of match trust.

On the tub over which she bends and scrubs there is a tariff-tax of 35 per cent. The bench or chairs it rests on are taxed 35 per cent and the paper pail beside them is tariff-taxed 35 per cent. The big boiler in which the clothes are boiled is tariff-taxed not less than 45 per cent. If she has been able to save up and get a mangle, the metal castings for it are tariff-taxed one penny a pound the wooden rollers 35 per cent and the framework 35 per cent. Nothing is so small and no one so poor to be overlooked.

Just what John D. said: Judge John E. McCall, of the United States District Court, at Jackson, Tenn., in the case of Government against the Standard Oil Company of Indiana to return a verdict of not guilty. Judge McCall sustained the contention of counsel for the defendant corporation that the United States had failed to prove the allegations set forth in the indictment. The oil company had been on trial for a week charged with receiving freight rate concessions in violation of the so-called Elkin law. The ruling of Judge McCall came immediately upon reconvening of court for the afternoon session. He concluded reading his opinion at 2:35 o'clock. This decision practically throws out of litigation the suit to collect about \$30,000,000 in fines from the Standard Oil Company. It will be recalled that when the Indiana Judge handed down his decision assailing the fines, John D. smiled and said "It'll never be paid," and he was right. Wonder if anyone got their

Right Move.
The citizens of Lexington have just elected two women, Miss Linda Neville and Miss Margaret Brown, to the Board of Education. These two women were candidates on the Fusion ticket. Their opponents on the regular Democratic ticket were two prominent educators of the city of Lexington, Professor M. L. Pence of the State University, and Professor T. B. McCartney of Transylvania University.

JUDGE WISE
Business Philosopher
Dear People:—I have come to Richmond under contract with John E. Sexton to entertain you with my illustrated philosophy and to bring home to you the merits of this store's Footwear. My mission is to amuse and benefit the large and intelligent audience within sight of my picture

These women, it will be recollected, were elected by the votes of men, no women in Lexington being allowed the school ballot. They were dominated by men, without any solicitation either from them or from other women, as a measure of party wisdom as well as of principle.

\$2.00 to \$5.00
Bargain Counter Saturday's
Sexton

As it happens, a strong effort was made by more than one of the masculine leaders in the Democratic party to have women nominated on that ticket. This was overruled by a small coterie of Democrats opposed to any recognition of women's services. Lexington is the city represented by the Honorable William Klair, who has in two Legislatures opposed the extension of school suffrage to Kentucky women.

It has been represented that the trial of school suffrage for women in Lexington some years back proved a failure. A flat contradiction of this statement of the politicians did not destroy its currency, though this contradiction was made by those who knew that Lexington was still profiting from the reforms instituted by women on the School Board; who could point to the State-wide reputation of some of the women who then gave their services free to their city; who knew that the suffrage was repealed without a demand from the people, practically without their knowledge, at the behest of a few politicians only.
